

TECHNICAL DATA SHEET

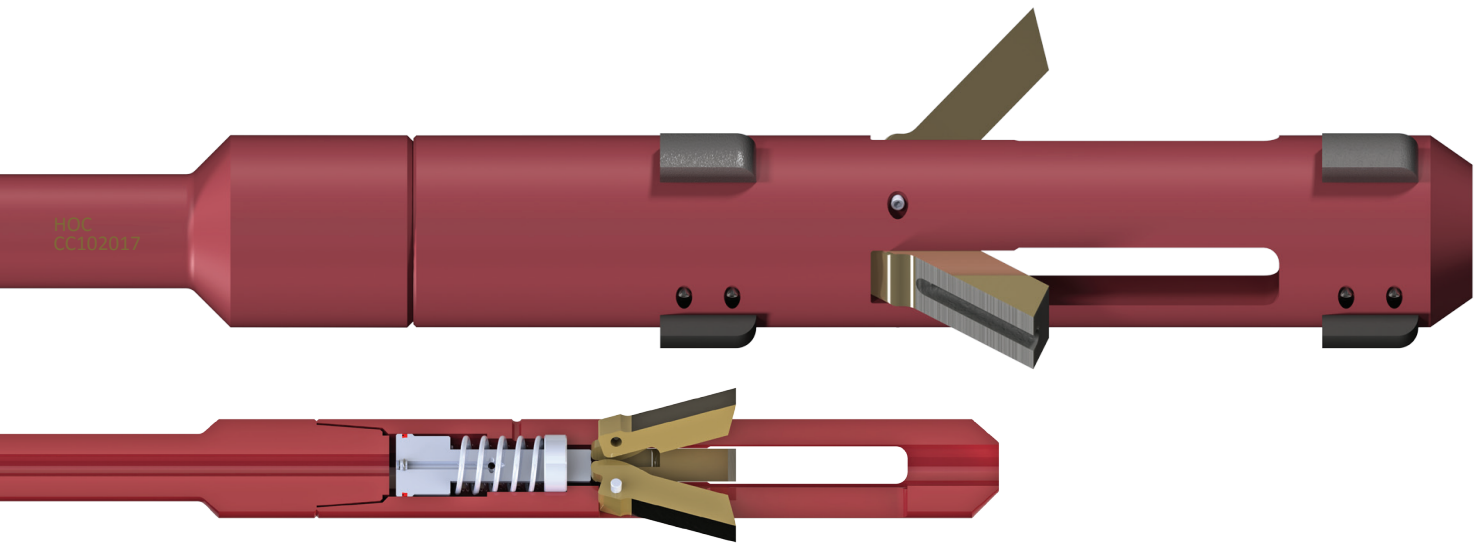

Multi-String Casing Cutter

TECHNICAL SUMMARY

The HOC Multi-string Casing Cutter utilizes pump pressure to actuate the carbide dressed knives to cut single and multiple strings of casing sizes ranging from 5" to 60".

FEATURES

- Incorporates an extra large internal piston for amplified cutting efficiency
- Utilizes one piece carburized piston in order to prolong life
- Each cutter body can be dressed with various length cutters to cut different casing sizes
- Consists of a body, top sub, three (3) knives, piston, wear bushing, spring and internal jet for pressure activation
- Can be manufactured with connection down upon request

TECHNICAL SPECIFICATIONS AND OPERATING PARAMETERS

Tool Series	Body O.D. (inches)	Cutting Range (casing sizes inches)	Top Connection (API REG Pin)	Bottom Connection (API REG Box)	Weight (Lbs)
CC-550	4.5	5" – 7-5/8"	2-7/8"	2-7/8" OR Open	180
CC-700	5.75	7" - 16"	3-1/2"	3-1/2" OR Open	290
CC-825	8.25	9-5/8" - 30"	6-5/8"	6-5/8" OR Open	850
CC-1175	11.75	13-3/8" - 60"	6-5/8"	6-5/8" OR Open	1955
CC-1600	16.00	20" - 72"	7-5/8"	7-5/8" OR Open	4500
